

International Forensics & Business Institute
presents its two-year Forensic Training Program

Associate Degree in Forensic Accounting & Financial Fraud Detection

The **Associate Degree** is designed for both individuals who have already completed the one-year Certified Forensic Accounting & Fraud Detection program and who wish to add a further qualification to their credentials and also for new candidates who wish to study for a longer period and obtain a further academic qualification. The program develops more of the theory, practical, forensic accounting casework, research and case management capabilities from some of the subject material from the one year Certified forensic Accounting Specialist program. ***Students who have already completed the one-year Certified Forensic Accounting & Fraud Detection program will be given credit for and be exempted from the first year (including first year costs) of the Associate Degree so that they will only have to study for one year (on a part-time basis)!***

Syllabus Topics Include:

- Forensic Accounting
- Fraud Auditing
- Financial Fraud Detection
- Forensic Accounting Investigations
- Forensic Accounting Casework Studies
- Report Writing, Research Methods & Case Management
